

International Fee Paying Students

Hello, my name is Rachel Shao. I am from China.

New Zealand is made up of a diverse range of cultures and identities, therefore we all learn about treating each other with respect, understanding and tolerance. When we grow up and start to contribute our skills to our country, we will subconsciously build a friendship bridge with different people and different countries.

My group of friends are from every corner of the world. We teach each other our own languages and cultures, and display them as one. We all love this place. I do not think we would love it, if it displayed only one culture and people in this huge land. Maybe it would be peaceful for many, but apart from peaceful, it would also be boring. Although we are all so different, we contribute our skills and mind-sets to this place to make it more vibrant and as colourful as a rainbow. If we respect each other, open our logic and culture to everyone, I believe we will form a beautiful rainbow across the sky in this land.
