

THE UNIVERSITY OF AUCKLAND

NEW ZEALAND

Te Whare Wānanga o Tamaki Makaurau

The University of Auckland is pleased to acknowledge the valuable contribution made by **Pakuranga College** in preparing international students for advanced study at University level.

New Zealand schools have an excellent reputation not only for the quality of their teaching and academic facilities, but also for their pastoral care of international students, which in many cases includes home stay accommodation with a family. All of them offer the National Certificate of Educational Achievement, which is fully accredited by the New Zealand Qualifications Authority and is recognised for admission by the University. Some schools also offer the internationally recognised Cambridge International Examinations (A levels) or International Baccalaureate, which are also recognised for admission by the University.

The University of Auckland publishes in advance guaranteed rank scores for every programme of study, and all international students reaching the required standard at **Pakuranga College** are guaranteed a place on the relevant bachelor's programme. The University is pleased to support **Pakuranga College** as a pathway to tertiary study.
